ABSTRACT

Shrimp export is the second most valuable export of fish and fishery products of Sri Lanka and it was 8% of during 2013. Among many commercial aquaculture initiatives so far, shrimp (*Penaeus monodon*) farming has been the most lucrative, but the business is subject to high risk and uncertainties since it started in the mid-1980s. In Sri Lanka Shrimp farming is one of the most important sector, because of its provides more employment and contribution of exports. The aim of this study is to identify the factors (location, financial support, disease management, technology, and marketing) influence on Shrimp farming entrepreneurship business success in Batticaloa district. Production of Shrimp farming has been observed as the Success of Shrimp farming.

The primary data were gathered from 65 Shrimp farmers based on stratified population sampling method through self-reported questionnaires and five-point Likert scale was assigned to measure the variables. The collected data were analyzed by using univariate, bivariate technique in a computer based Statistical package for the Social Science 22.0 version software and analyzed using descriptive statistics, correlation and regression analysis in order to find the results of study objectives.

Five hypotheses were developed and tested. The results indicated that the factors influence on the success of the Shrimp farming. All the factors have high influence on success of Shrimp farming. Correlation analysis shows that there is a strong positive relationship between location, financial support, technology, and marketing while disease management has a moderate positive relationship with success of shrimp farming. All the factors are significantly and positively affects the success of Shrimp farming.

These findings indicate shrimp farmers need to consider the factors that influencing on the shrimp farming for the success of shrimp farming.

Keywords: Location, financial support, Disease management, Technology, Marketing

Chapter-5: DATA PRESENTATION AND ANALYSIS.....	47
5.1 Introduction.....	47
5.2 Reliability Analysis.....	47
5.3 Analyze Personal information of respondents	48
5.3.1 Age distribution.....	48
5.3.2 Civil status of the Respondents.....	48
5.3.3 Types of Shrimp Farming System	49
5.3.4 Number of years running the business.....	49
5.4 Research Information.....	49
5.4.1 Means and Standard deviation of Location, Financial Support, Disease management, Technology, Marketing, and Success of Shrimp Farming.....	50
5.4.1.1 Level of Suitable Location.....	50
5.4.1.2 Level of Financial Support.....	51
5.4.1.3 Level of Disease Management.....	52
5.4.1.4 Level of Technology.....	53
5.4.1.5 Level of Marketing.....	54
5.4.1.6 Overall level of influence of Shrimp farming success.....	55
5.5 Bivariate Analysis.....	56
5.5.1 Correlation between Location and success of Shrimp farming.....	56
5.5.2 Correlation between Financial Support and success of Shrimp farming.....	57
5.5.3 Correlation between Disease management and Success of Shrimp farming.....	57
5.5.4 Correlation between Technology and the success of Shrimp farming..	58
5.5.5 Correlation between Marketing and success of Shrimp farming.....	59

5.6 Objective 3: To identify the impact between Location, Technology, Disease management, Financial support, marketing on the Success of Shrimp Farming.....	59
5.6.1 Simple regression analysis between Location and Success of Shrimp farming	60
5.6.2 Simple regression analysis between Financial Support and Success of Shrimp farming.....	61
5.6.3 Simple regression analysis between Disease management and Success of Shrimp farming.....	63
5.6.4 Simple regression analysis between Technology Success of Shrimp farming.....	65
5.6.5 Simple regression analysis between Marketing Success of Shrimp farming.....	67
5.7 Chapter Summary.....	69
Chapter-6: FINDINGS AND DISCUSSION.....	70
6.1 Introduction.....	70
6.2 Finding on Personal Information.....	70
6.2.1 Age.....	70
6.2.2 Number of years runs the business.....	70
6.2.3 Types of aquaculture system.....	71
6.2.4 Civil status.....	71
6.3 Finding on Research Information.....	71
6.3.1 Suitable Location.....	71
6.3.2 Financial Support.....	72
6.3.3 Disease management.....	72
6.3.4 Technology.....	73
6.3.5 Marketing.....	73
6.3.6 Overall level of determinants of shrimp farming.....	73

6.4 Discussion for Objective Two - To examine the relationship of Location, Technology, Disease management, Financial support, Marketing, and Success of Shrimp Farming.....	74
6.4.1 Relationship between Location and Shrimp farming.....	74
6.4.2 Relationship between Financial Support and Shrimp farming.....	74
6.4.3 Relationship between Disease management and Shrimp farming.....	75
6.4.4 Relationship between Technology and Shrimp farming.....	75
6.4.5 Relationship between Marketing and Shrimp farming.....	76
6.5 Discussion for Objective Three.....	76
6.5.1 Simple regression of Location and Success of Shrimp farming.....	76
6.5.2 Simple regression of Financial Support and Success of Shrimp farming.....	77
6.5.3 Simple regression of Disease management and Success of Shrimp farming.....	77
6.5.4 Simple regression of Technology and Success of Shrimp farming.....	77
6.5.5 Simple regression of Marketing and Success of Shrimp farming.....	78
6.6 Chapter Summary.....	78
Chapter-7: CONCLUSION AND RECOMMENDATIONS.....	79
7.1 Introduction.....	79
7.2 Conclusion	79
7.3 Contribution of the Study.....	79
7.4 Recommendation	80
7.4.1 Suitable Location.....	80
7.4.2 Financial Support.....	81
7.4.3 Disease management.....	81
7.4.4 Technology.....	82

7.4.5 Marketing.....	82
7.5 Limitations of the Study	82
7.6 Direction for Future Studies.....	83
