05. Read the following article and answer the questions given below:

Job interviews are never easy. You meet new people, and try to sell yourself and your skills. Here are job interview tips to help prepare you for interviews. Proper preparation will help take away some of the stress involved in job interviews.

Practice answering interview questions and practice your responses to the typical job interview questions most employers ask. Think of actual examples you can use to describe your skills. Providing evidence of your successes is a great way to promote your candidacy.

Prepare a response so you are ready for the question: "What do you know about our company?" Try to relate what you know about the company when answering questions. When discussing your career accomplishments match them to what the company is looking for.

Make sure your interview attire is neat, tidy and appropriate for the type of firm you are interviewing with. Bring a nice portfolio with copies of your resume. Include a pen and paper for note taking.

Be on time for the interview. On time means five to ten minutes early. If need be, take some time to find out exactly where you are going and how long it will take to get there.

During the job interview try to relax and stay as calm as possible. Maintain eye contact with the interviewer. Listen to the entire question before you answer and pay attention – you will be embarrassed if you forget the question!

Adapted from Job Interview Tips and Advice by Alison Doyle

(a) What will help you to free from the stress on job interview?

.....
.....

(b) Why are job interviews never easy?
