Q1.

By using "MS Word 2013" create the following document as shown below and save it as
"LMS.docx" on your Index number folder created in the Desktop. Insert "date of today" as
header and insert "your index number" as footer.

The role of a **Learning Management System** varies depending on the organization's
objectives, online training strategy, and desired outcomes. _However_, the most common
use for ⸱LMS⸱ software is to deploy and track online training initiatives. Typically,
assets are uploaded to the Learning Management System, which makes them easily accessible
for remote learners. In some cases, the LMS may even have built-in eLearning authoring
tools that allow you to develop online training materials without additional third-party
software.
