ABSTRACT

This study is measuring the impact of the past activities of commercial credit plc which had implemented the micro finance scheme in Batticaloa with objective to build the capacity of the household to meet their needs and improving their beneficiaries.

This research reveals the opinion of beneficiaries in regard to the micro finance scheme implemented by commercial credit plc. In this research the hundred beneficiaries from the village in Batticaloa were selected for samples. And found the impact of micro finance scheme implemented by commercial credit plc.

The quantitative research approach specifically designed to evaluate the impact of micro finance Scheme. Hundred questionnaires were issued to beneficiaries who are involving micro finance Scheme. Data evaluation was made through the descriptive statistics with use of SPSS.

As research findings reveals dissatisfaction reveals from this survey, Even after the implementation of these programmed there has not been observed a significant change in the people. Present life However, there is a need to improve their life even to some extent in future.

To implement new scheme in future the analysis of these scheme provide a good feedback. This research carried to find the impact of micro finance scheme to the women beneficiaries understanding the actual problems and findings ways to further improve their life in a successful manner.
