## ABSTRACT

This study was on Economic analysis of small scale flower production in selected areas of Nuwara Eliya DS division of Nuwara Eliya district. The study was mainly based on primary data obtained from a sample survey in four GN divisions at Nuwara Eliya DS division of Nuwara Eliya district. Both primary and secondary data was used in this study. 100 small scale flower farmers in the study area were selected as the respondents. Data was analyzed using SPSS and MS Excel. Descriptive statics, Gross margin analysis, Benefit Cost Ratio, Breakeven analysis and Regression analysis were done. Socioeconomic features of farmers, marketing sources of flowers and flower products, cost of production of flower farming and constraints in small scale flower farming were studied.

It was found that lack of preservation facilities between harvesting to marketing, higher transportation cost, lack of modern cultivation technologies, Lack of quality planting materials and drought caused by the reforestation at the area were the major problems faced by small scale flower farmers. 45% of farmers sell their products to flower collection centers. 65% of farmers were obtained loan for flower farming. 29% farmers only exposed to extension services and 56% of farmers participated in the training programs.

Regression model result reveal the age of the respondent, education level and marital status had significant impact on output of flower farming.

According to the gross margin analysis the net profit for Rose, Anthurium, daisies and Chrysanthemum were Rs 105650, Rs 55,500, Rs 137,274 and Rs 74,357 per annum per 1000sq.ft. Breakeven prices were Rs 2.95, Rs 2.72, Rs 1.71, Rs 1.31 and Benefit Cost Ratios were 5.07, 3.67, 6.98, 4.56 for Rose, Anthurium, Daisies and

ABBREVIATIONS.....	XI
CHAPTER ONE.....	01
INTRODUCTION.....	01
1.1. Background of the study.....	01
1.2. Floriculture industry in Nuwara eliya District.....	03
1.3. Problem statement .....	03
1.4. Objectives of the study.....	04
1.4.1. Main objective.....	04
1.4.2. Special objectives.....	04
1.5. Limitations of the study .....	05
CHAPTER TWO.....	06
LITERATURE REVIEW.....	06
2.1. International floriculture sector.....	06
2.2. Floriculture Industry in Sri Lanka.....	07
2.2.1. Geographical distribution across the country.....	07
2.3. Seasonal variation.....	08
2.4. Importance of flowers in Sri Lanka.....	08
2.5. Floriculture products available in Sri Lanka.....	09
2.5.1. Ornamental foliage plants.....	09
2.5.2. Cut decorative foliage.....	09

2.5.3. Cut flowers.....	09
2.5.4. Aquarium plants.....	10
2.5.5. Landscaping plants.....	10
2.5.6. Tissue cultured plants.....	10
2.5.7. Flower seeds.....	10
2.6. Specialties available with Sri Lankan floricultural products.....	11
2.7. Domestic sales of flowers.....	11
2.8. Producer clusters.....	12
2.8.1. Floriculture produce exporters association.....	12
2.8.2. Bingiriya agri export zone.....	12
2.9. Employment opportunities in floriculture sector.....	12
2.10. Education and Training programmes available for floriculture.....	13
2.11. Role of the government in the floriculture sector.....	13
2.12. Government policies and supports available for Floriculture sector.....	14
2.13. Marketing of Floriculture products.....	14
2.14. Export sector of floriculture.....	15
2.15. Types of players in floriculture export sector.....	15
2.16. Major markets available for Sri Lankan floriculture products.....	16
2.17. Export performance of Chrysanthemum.....	16
2.18. Export performance of Roses.....	16
2.19. Export performance of Anthurium.....	17
2.20. Importing floriculture products to Sri Lanka.....	17
2.21. Floriculture industry at Nuwara Eliya.....	18
2.22. Organizations related to floriculture.....	20
